*"To maintain high educational standards to meet the needs of all students in a safe and caring environment,
so that they may assume responsible roles in society."*

May 31, 2021

Good afternoon parents and guardians,

We have learned today that a third person connected to Forestburg School has tested positive for COVID-19. This person was not in our building during their infectious period, so there are no additional quarantine requirements.

Alberta Health Services has now designated our school to be on "alert" status, which happens when a school has two or more active cases of COVID-19 within a two-week period of time. We have posted a letter on our website from AHS, with more information about that. Here is the link: <https://forestburg.brsd.ab.ca/download/348602>

We encourage you to keep an eye on your child. If any symptoms do arise, please keep your child at home and arrange testing. Here is a link to the daily checklist, which can help you determine what to do: <https://www.brsd.ab.ca/download/287801> You can also contact HealthLink at 811 for advice.

If your child does test positive, please contact the school to let us know.

Take care.

Yours in Education,

Mr. Gordon Thompson
Principal
Forestburg School
