

BATTLE RIVER SCHOOL DIVISION

What is a Dual Credit Program?

Students are concurrently enrolled in a post secondary institution while at high school. Students earn credits towards their high school diploma AND the post secondary school. Their post-secondary tuition fees are paid by BRSD.

Dual credit helps students to:

- get a jump start on their post-secondary education while still in high school
- complete high school while engaging in meaningful curriculum
- transition to post-secondary studies or move into the world of work
- potentially complete post-secondary with less financial debt

Students interested in enrolling in any of the following courses should contact their school administrator to obtain application forms. Space in most programs is limited and filled on a first come, first served basis. Please ensure that you are familiar with the requirements/conditions of this program by viewing the information in the following presentation [BRSD Dual Credit Program - Information for Students and Parents](#)

To obtain additional information please contact Tracy Beattie, Division Principal for Battle River School Division at tbeattie@brsd.ab.ca . All completed applications should be forwarded to this email for submission to the appropriate institution. To access additional information for students and parents can also visit the [Dual Credit information on the Alberta Education Website](#). The following indicates the courses that are currently available, these will be updated for the fall of 2019 as courses become available from institutions.
